Main Capabilities

E-commerce:

Whether your client wants to buy in the physical store or online, I can do it with complete success since LLB Retail integrates with Shopify; your customers can buy online and pick up in store or you can manage shipping to their homes, returns for items purchased online, reservations, appointments, special events, repair or maintenance services. with a constant flow of information from LLB Retail POS to LLB Retail Back Office (ERP).

Loyalty:

LLB Retail allows you to create omnichannel loyalty programs depending on the stores and their needs, such as: multiple purchase offers, discounts, special discounts for loyal customers. These programs can be applied to all jewelry stores, such as some of your stores, automatically and centrally on certain days. LLB Retail allows you to know the purchasing habits of your customers, this will allow you to have a personalized service focused on your customers. You can also track the birthdays or anniversaries of your frequent customers, offer real information on the availability of items and where in real time to fulfill what is promised to your customers.

Inventory control

LLB Retail allows you to control the inputs, outputs and transfer of items between your jewelry stores, optimize the replenishment of extremely precise stocks by item or type of item, establishing which items should be automatically replenished and which should be reordered manually, you will have clear visibility of what is available and where.
